

APPLICATION LETTER

Name: Bahiru Mulugeta Mekonnen

Date: 3/31/2022

To: John Snow, Inc. (JSI)

I was graduated from Addis Ababa Science and Technology University department of Software Engineering on September 22/2021G.C. I have a great interest to work in bank train to bring a positive influence by doing quality work as your members were worked before. I feel that my ability to work under pressure would be useful for work in your company. In addition, I am a hard worker, committed, cooperative and friendly with an excellent personal character for teamwork. I assure you that I shall do my best to give entire satisfaction for your company.

I believe in my experience, passion, and skills fit well with the credentials you are seeking.

Most importantly, as a person who firmly values continuous growth, I have manifested a strong ability and willingness to learn through utilizing resources within my reach. Consequently, I see every task as a learning opportunity and proactively look for spaces where I can be of any assistance. This attitude helped me with my efforts to expand my scope on business, investment, and technology literacy. Besides, I have a personal quality of being organized, quick, and confident in my work. I am very trustworthy and responsible when working alone as well as totally cooperative when assigned to group tasks.

In line with my ambitions, I believe this particular role would be a strategic place for me to leapfrog my perceptual experience. Through this opportunity, I would also like to further expand my research and execution skills. With the right guidance and mentoring, I am confident that I can be a person who can grow the company and help on achieving critical goals.

Thank you very much for your time.

Yours Sincerely, Bahiru Mulugeta
